

THE AVIGILON ADVANTAGE

HELPING YOU FOCUS ON WHAT MATTERS MOST

As part of the Motorola Solutions Video Security & Analytics portfolio, Avigilon is committed to designing the technology of today with an eye towards shaping the future. Motorola Solutions offers the first and only mission-critical ecosystem of voice, video, software and services, providing Avigilon users with a wide range of technologies that work together to improve and streamline their security initiatives.

WHY AVIGILON

Our security solutions help you maximize the efficiency of your team so you can focus on protecting what matters most — your people and property.

END-TO-END INTEGRATION

Our video security, access control, and cloud solutions work as part of an ecosystem with other Motorola Solutions technologies, including two-way radios, body-worn cameras, incident management software and private LTE, offering a complete ecosystem to help you protect what matters most.

MANUFACTURED IN NORTH AMERICA*

Our solutions are designed, developed and manufactured at our state-of-the-art facilities in the US and Canada and are NDAA-Compliant. This helps to ensure quality control and efficiency throughout the manufacturing process and enables continuous, accelerated innovation.

A SMART INVESTMENT

Our solutions offer value that you can rely on while easily integrating with your existing system.

3- OR 5-YEAR LIMITED WARRANTY

Avigilon products are supported by a comprehensive 3- or 5-year warranty. Advance replacements are available for products under warranty and we offer hassle-free returns under our return policy to ensure you are fully satisfied with your video security platform.

OPEN PLATFORM

Many of our solutions are ONVIF® compliant, which promotes easy integration with third party software and hardware, giving you the flexibility to leverage your existing third-party resources and investments.

*Many of Avigilon's products are designed and manufactured in North America using globally sourced materials. With manufacturing facilities in both the United States and Canada, our "Designed and manufactured in North America" claim applies only to products from our Richmond, British Columbia and Richardson, Texas facilities.

SMART SECURITY SOLUTIONS

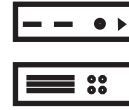

FIXED VIDEO

ACCESS CONTROL

AVIGILON CLOUD SERVICES

VIDEO INFRASTRUCTURE

VOICE, DATA & VIDEO SECURITY ECOSYSTEM

AI-POWERED VIDEO ANALYTICS

FACIAL RECOGNITION TECHNOLOGY

Accelerate response times by quickly identifying people of interest so you can proactively respond.

NEXT-GENERATION VIDEO ANALYTICS

Enables the tracking and classification of over 50 objects, including a car, truck, bus, motorcycle, and bicycle.

AVIGILON APPEARANCE SEARCH™ TECHNOLOGY

Quickly search and find a person or vehicle of interest and track their route throughout all cameras on a site.

FOCUS OF ATTENTION INTERFACE

Provides a simple graphical representation of camera deployments and the events occurring across all of your on-site cameras to help expedite review.

UNUSUAL MOTION & ACTIVITY DETECTION

Continuously learns what typical activity in a scene looks like, then detects and flags anomalies that may need further investigation, reducing hours of work to minutes.

COVID-19 RESPONSE SOLUTIONS

Operate safely and comply with local health and safety guidelines with the help of No Face Mask Detection, Occupancy Counting and Social Distancing technologies.

BACKED BY BEST-IN-CLASS WARRANTY & SUPPORT

EXCEPTIONAL TECHNICAL SUPPORT & SERVICE

We offer extensive customer service and 24/7 technical support for installed hardware and software. Our goal is to deliver fast, efficient and effective customer service through our well-trained and passionate representatives — our team is engaged, informed and ready to help. To better meet your needs and preferences, support is offered in multiple languages by phone, email and online chat.

FREE COMPREHENSIVE TRAINING

We provide complimentary training for partners through the Avigilon Training Center. The comprehensive selection of technical courses in the Training Center covers foundational and operational knowledge of video surveillance, video analytics and access control solutions.

Additionally, partners can enroll in our complimentary instructor-led courses. Delivered by expert trainers, these sessions are student-centered, lab-focused, and provide advanced and detailed instructions. Learn more at: [avigilon.com](https://www.avigilon.com)
